There are other signs - ~~two~~ <sup>three</sup>  
specific pieces of work (2 on potential  
CBW impact on civilians, one  
a more general DIS paper) on  
which DFID advice/input has  
been requested today - that MOD  
and the military are beginning to  
take more seriously the humanitarian  
implications for military operations and any conflict.

I am glad that Cabinet  
Office have recognised the case  
for including us - I will attend.  
Let's discuss with CHAD at our  
meeting tomorrow how to focus  
our input (see some comments  
in margins)
