IRAQ: BLIX "CLUSTERS" REPORT

You asked for a note on the subjects covered by the "clusters" report. The report consists of a list of unresolved disarmament issues broken down by subject area. There are therefore questions to which UNMOVIC has been unable to obtain answers in every one of the following 29 areas:

I. MISSILE CLUSTERS

- a. Scud type missiles
- b. SA-2 Missile Technology
- c. Research and development (R&D) on ballistic missiles capable of proscribed ranges
- d. FROG (Luna) Special Warheads
- e. Development of solid propellant missile systems before and after the Gulf War

II. MUNITIONS AND OTHER DELIVERY MEANS CLUSTERS

- a. Scud-type Biological and Chemical Warheads
- b. R-400 and R-400A Bombs
- c. Major Aerial Bombs
- d. Major Rockets and Artillery Projectiles
- e. Spray devices and Remotely Piloted Vehicles
- f. Other Chemical and Biological munitions

III. CHEMICAL CLUSTERS

- a. Tabun
- b. Sarin and Cyclosarin
